

GLOBALION
TECHNOLOGY SOLUTIONS LLP

Globalion PROFILE

WE ENABLE CONSTANT ENTERPRISE TRANSFORMATION AT SPEED AND SCALE.

Welcome To Globalion Run after your dreams like a lion runs after it's prey.

The post-pandemic age is showing absolutely no signs of slowing down. In fact, it's only evolving and accelerating with time. And thus, the requirement for rapid business transformation has never been stronger.

At Globalion Technology Solutions LLP (GTS), we love meeting clients wherever they are on the path to technological change and partner with them to build enduring values.

Globalion is the brainchild of a seasoned IT professional with 17+ years of experience in diverse IT consulting in Pune. We aspire to create intelligent models that empower human thinking and enable data-driven decision-making.

From app development in India to enterprise application management in Pune, we discover new horizons for our clients so they can become a leader in their industry and shift from doing their best to doing even better.

Let our solutions simplify your business complexities and maximise the value of information and IT. Let us roar ahead to discover, learn and evolve together.

Outsourced Service In-house Feel

We believe in implementing our decades of knowledge, hard work and talent to guide you on your path of success and acceleration.

Our Core Values

Our core values are essential to safeguard our people, clients, brand and our performance. It's the foundation on which we build customer trust every day at Globalion.

T

Technological Excellence

We embrace the latest technologies with bravery and determination to add value to our client's businesses.

R

Reliability

We invite clients to rely on us to solve all their complex problems. Our technical experts get the job done with the highest level of satisfaction.

U

Uniqueness

No two businesses are the same, and thus, our solutions are always unique, out-of-the-box and customised to resolve complex challenges.

S

Sustainability

Our solutions aren't just sustainable but also future-driven. We resolve the problem for good, enabling you to focus on your core business areas.

T

Team

By attracting, developing and retaining the best talent in the industry, we can offer a competent team to our clients at all times.

Our Mission

To enable businesses and people to realise their unlimited potential and be the catalyst for change that empowers our world with a digital transformation. We're on a mission to make IT simpler, faster, and brighter for your future.

Our Vision

To emerge as the preferred technology partner for our clients by enabling them with innovative and focused solutions that resolve real-life challenges with the perfect blend of time, cost and quality for assured growth.

Our Services

Let us help you overcome technological challenges across the mobile, web and the cloud to help you gain the required speed and agility in your business. IT challenges can cost billions of dollars to any company, and in such 2cases, IT consulting in Pune can help you save time and resources. Instead of hiring just one resource for IT, when you deploy our solutions, you recruit an entire team with in-depth knowledge and the most innovative and latest equipment.

Application Support

With predictive maintenance, you can boost IT efficiency in your enterprise and ensure all your applications are running smoothly with minimum downtime. Globalion specialises in application support in Pune, which helps our clients increase uptime, improve their profitability and grow revenue.

Cloud Computing

Is your enterprise ready to scale with the speed and agility of the cloud? Globalion's cloud computing services in Pune help tackle your biggest challenges and deliver the highest value. You can avail of our cloud transformation consulting, cloud architecture design, cloud capacity planning, TCO calculations, or cloud-managed services.

Cyber Security

Trust Globalion to tailor security solutions as per your unique business needs. As a result, we increase your resilience against global cyber threats and defend against attacks with focused, proactive and industry-relevant intelligence. Thus, you gain complete peace of mind, knowing that your business is secure from end to end.

Data Management

A steady stream of insights can help leaders like you make better business decisions. With data analytics and AI, there are countless possibilities for enhanced data management in Pune. We reimagine your data to make it more transparent, accessible, and trustworthy, available to access at a super-fast speed. Make your data more valuable on the cloud or on-premise.

DevOps & SRE

We comprehensively analyse your requirements, and our DevOps consultants guide you through the process to help you visualise the results. As a result, your business can enjoy increased frequency and reliability from software releases. While DevOps helps solve development issues our Site Reliability Engineers (SRE) help tackle all operational problems.

Digital Marketing & SEO

Whether you want to increase traffic on your website, get more engagement on your social media profiles, or leverage video marketing for your brand, our digital marketing services in Pune have helped many businesses excel online. We do everything from defining a robust digital marketing strategy to executing it with creativity and timely delivery and using SEO-friendly tactics.

E-Learning

As pioneers in e-learning services, we bring you subject matter experts to develop courses, build interactive videos, promote microlearning and drive performance with just-in-time support. Hire Globalion to design innovative and customised e-learning solutions that suit your unique and evolving business needs.

Enterprise Application Management

Whether you're working on-premise or on the cloud, we can help you with enterprise application management in Pune to deploy, monitor and scale services as per your requirements. Trust Globalion to optimise asset utilisation and reduce your operational costs.

Graphic Designing

Let us tell your brand story through exciting visuals, enticing infographics and exceptional graphics. Globalion's team of designers work diligently to make every brand communication stand out with the proper use of colours, fonts, content, and a big idea. Our human-centric design solutions make a lasting impact on your customers and brand.

Infrastructure Management

By proactively administering and managing your technology, information and data, our infrastructure management solutions in Pune protect your critical assets. Our scope of work ranges from desktops to networking, data, storage, security and cloud-based services, along with the people involved to keep everything working efficiently.

IT Consulting

If you're looking for cost-effective IT consulting in Pune, Globalion offers a spot-on strategic consulting service that helps bring business-critical solutions to life. We ideate, conceptualise, architect and implement the solution backed by round-the-clock consulting support.

Mobile Applications Development

With our robust mobile application development and maintenance services, businesses can efficiently handle their entire application portfolio. You can choose end-to-end mobile applications development in Pune for modern IT systems development, UI/UX designing, QA testing, deployment, regular maintenance and enhancement with upgrades.

Staffing Solutions

Our IT Staffing Solution harnesses the power of our combined experience and network to provide the best talent with suitable skills and character to your organization.

Software Testing

Your customers expect a world-class experience in every interaction across devices. Unfortunately, undetected bugs can be 640 times more expensive to fix after the software has been released.

Web Development & Hosting

We empower businesses to build next-gen websites and applications using the latest technologies and frameworks that work fluidly across platforms and devices.

Industries We Serve

Globalion offers specialised IT solutions for a vast array of industries. Our products and services are designed to enable businesses of all sizes and sectors to reduce capital expenditures, embrace technological advancements and enable long-term growth and development. Irrespective of what category your business falls under, our expert team members will tailor a customised program to meet and exceed your technology requirements.

Banking & Finance Institutions

Let's reinvent how customers pay, buy and invest with Globalion's customised banking and financial software solutions. Our expertise in the FinTech domain and the years of expertise of our team members help you with full-stack software development solutions.

Construction and Realty

The real estate industry is evolving rapidly, and technology is helping businesses leap to the next level. As you rely on mobile devices to store confidential client data and share information with brokers, sellers, buyers, mortgage companies and others, having a robust software solution is essential.

Education

We offers managed IT services for educational institutes, helping you protect your students' private data while balancing your staff's needs to access information. Trust us to build technology labs, support remote students, create disaster recovery and data protection plans between students and staff.

Entertainment

The entertainment industry is largely dominated by technology – online gaming, OTT, short videos, multimedia, and more. We can support your business with apps that enable audio and video streaming, in-app purchases, push notifications, live chatting, social media integration, reminders, localisation, and more.

Food and Health

Our software solutions for the food and healthcare industry improve care and wellness as we work with the top F&B, medical and fitness brands. With a fast-paced ecosystem and advanced application development solutions, we empower businesses to boost every single process and customer interaction.

Furnishing and Décor

Whether you're in the business of manufacturing tables, desks, and chairs or selling sofa sets and upholstery, the furnishing and décor industry faces a unique set of challenges. Catalogues require variations; raw material prices change, delivery dates must be adhered to, and so on.

Manufacturing and Logistics

Whether you're looking for software solutions for logistics management, transport management, data analytics, automation for manufacturing plants, managed process control systems, inventory control, cloud management or more, we can help your manufacturing or logistics business.

MSMEs

Globalion works with many MSMEs to build a scalable supply chain management system, streamline daily operations, lower operating costs and grow faster and better. By embracing the latest technological innovations, MSMEs gain an edge over their competition.

Retail Industries

Meet your customers' growing needs while maintaining the highest security and privacy protocols with Globalion. We empower retail companies with tech support to help you enjoy steady growth as your customer base keeps increasing.

Technology Companies

As a software business, technology is undoubtedly your friend. But with Globalion, technology can be your partner in growth and success. We enable software businesses to leverage the latest innovations and tech advancements for optimum client satisfaction.

Travel and Hospitality

Globalion can help you design and develop customised apps for your travel company that are loaded with new-age features for better customer experiences. Our key solutions include travel planning, check-in and boarding, ticket and hotel booking, car booking, and more. Our clients choose our robust tourism and travel software solutions to ensure great returns.

Our Products

And Many
More....

Our Clients

Every business challenge, big or small, has a solution embedded in the right mix of ideation and technological innovation. At Globalion, we hunt for results with grit, determination and passion."
